

AIRFLOW

NEXT GENERATION TRAILER AERO TECHNOLOGY

Improves MPG More Than 5%

Durable

*Inset from the edges of the trailer - away from impact areas
Flexible lower chafe strip gives 20" ground clearance*

Lightweight

*Under 120 lbs complete
Half the weight of traditional trailer skirts*

Style

*Modern, refined aerodynamic profile
Enhances the aesthetics of the trailer*

Compliant

*Stand-alone California compliant on reefers
Compliant on dry vans when used with Bumper Bullet*

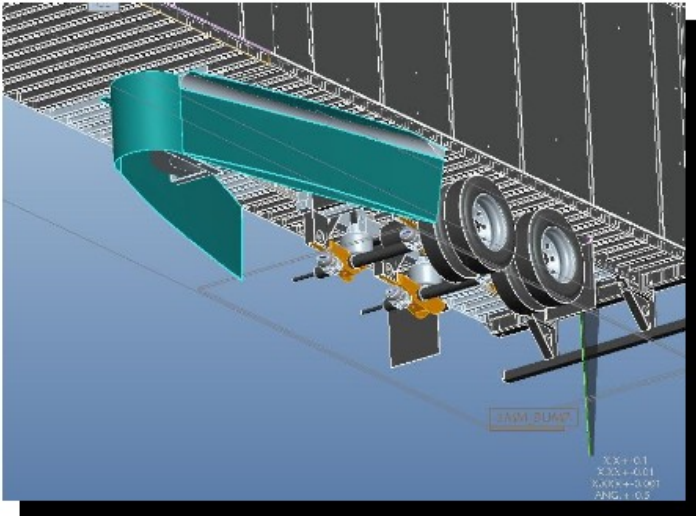

Safe

*Reduces road spray
Trailer is more stable in crosswinds than with side skirts*

Fast ROI

*Reasonable upfront cost, very low maintenance expense
Can be financed for immediate positive cash flow*
